

# A SAFE SPACE

Have you ever longed for a free-to-be-you place?  
If you've ever found one, you have a Safe Space!  
A Safe Space can be a city, a forest, a room.  
A blanket, a book, or a song, or the moon!  
But mostly, Safe Spaces are people. It's true!  
They're allies and champions, embracers of you,  
no matter your how, what, when, where, why, or who.  
And Safe Spaces are you, once you know what to do.
